

paul iarrobino

Paul Iarrobino is a community activist, speaker, coach, and producer with a strong interest in storytelling and preserving LGBTQ history. He “retired” after working twenty-six years in the aging field where he managed a portfolio community-based programs. His new endeavors include defining a fresh, innovative path that includes regular collaboration within an ever-expanding community. He enjoys helping others discover new possibilities in his coaching practice.

A passion to preserve the histories of the LGBTQ community led him to take the leap into starting his own business. In 2017 he ventured into the field of “producer with the groundbreaking video *Breaking the Silence: an Oral History of Oregon’s LGBTQ Service Members*. He created the film to raise awareness of how military culture negatively impacted and continues to impact the LGBTQ community. Our Bold Voices, Paul’s storytelling company, trains and mentors new storytellers while helping raise funding and awareness for smaller local nonprofits.
